

Course Description

This course is designed for nurses preparing for the Certified Emergency Nurse Examination (CEN). This course is an excellent opportunity for those nurses preparing for examination, or for those wanting to improve assessment skills and knowledge related to emergency nursing.

Faculty

Pat Clutter RN, MEd, CEN, FAEN

Pat has been a registered nurse working in the emergency department in a variety of capacities since 1974. She currently works PRN at the stretcher-side, worked as a ship nurse, lectures for both Med Ed Inc and independently. She is active in the ENA at the local, state, and national levels; lectures at ENA national and state conventions and serves as a JEN section editor. Pat's repertoire includes authoring articles published in professional journals and other journalistic endeavors. In 2005, Pat was one of 39 active and two honorary emergency nurses nationwide inducted into the Academy of Emergency Nursing. Pat took the CEN exam in 1980 when it was first offered and has maintained certification since that time. She has nine years of CEN review teaching experience with excellent reviews!

Continuing Education

Centerpoint Medical Center is an approved provider of continuing nursing education by the Missouri Nurses' Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

Upon completion, the participant will be awarded **15** contact hours.

Cancellation Policy

**7th Annual
CEN Review**

The Value of Professional Certification	
Certification for the Emergency Nurse provides:	Benefits for certified nurse employers include:
Pride and personal satisfaction through increased confidence and personal growth	General public has the assurance that the nurse is competent and current. This is more relevant than ever since the Pew Commission, representing the general public, is asking for nurses to validate their competency.
Validation of emergency nursing expertise	Marketing benefits: "Our emergency department is staffed by certified emergency physicians and nurses"
Career advancement opportunities and increased employment potential	Patient Satisfaction increases as a result of expert nursing staff.
Monetary differentials	Decreased hospital insurance premiums
Benefits of Certification for the Consumer:	
Certification provides the consumer and/or patient the comfort that one's health care provider is competent and responsible. This translates to a stronger belief in the ability of the nurse AND in the credibility of the institution.	

**Thursday & Friday
September 5 & 6, 2013
